

The Blue Ocean Bundle

Buy the coins that are making waves in crypto

What's the Blue Ocean Bundle?

The Blue Ocean Bundle is your chance to build a growth portfolio, with an exclusive collection of three new blockchain cryptos, and the high-potential Dacxi Coin – the native coin of the Dacxi economy. These three cryptos are emerging as major global assets, and they're poised to disrupt and dominate the industry.

Here's a breakdown of the Blue Ocean Bundle:

30% - Polkadot

the world leader in the technology that links blockchains together.

30% - Chainlink

leader in the tech that links outside feeds of information and value into blockchains.

20% - Stellar

innovator of financial system blockchains, allowing for instant value transfer globally.

20% - Dacxi Coin

pioneer of the global Crypto Wealth sector, and global innovation funding.

PLUS a special limited-time bonus of 10% more Dacxi Coins.

Why is it called the 'Blue Ocean' Bundle?

In the business world, the term 'Blue Ocean' describes a new market with little competition, and huge innovation potential. And that's what these coins represent. They're highly liquid assets, with strong underlying use cases; providing the invaluable crypto-infrastructure needed to build the upcoming 'Token Revolution'.

What's the Dacxi Coin?

The Dacxi Coin is the official currency of the Dacxi economy. It's the world's first Wealth Builder Coin, designed specifically to accelerate growth. With Dacxi set to launch at least 50 national Crypto Wealth Platforms in 2021-2022, the Dacxi Coin has significantly more growth potential than the big Blue Chips.

Why buy a bundle?

In 2018, Dacxi pioneered the world's first crypto portfolio programme. Our suite of easy-to-buy Bundle products gives everyday people a simple way to instantly build a high-performing, low-risk portfolio of crypto assets. One of our flagship bundle programmes, the Blue Chip Bundle, has delivered better results than any other low-risk portfolio product on the market. After the Blue Chip Bundle's success, we're thrilled to introduce the Blue Ocean Bundle to our line-up.

Your security is our priority

Once purchased, your Blue Ocean Bundle assets will be stored in your digital wallet on the Dacxi platform. Dacxi has earned an independent A+ security rating; the highest rating possible. So you can rest assured that your crypto will be safe and sound with Dacxi.

How do you buy the Blue Ocean Bundle?

The Blue Ocean Bundle is only available for purchase on the Dacxi platform. Just set a desired amount, and our system will automatically buy your coins based on our fixed proven ratio. You can sell any of your Bundle coins individually any time you like – giving you total control over your purchase.

Dacxi Learn

Crypto is the world's most exciting asset class. But it's also one of the newest, which can make it feel like uncharted – and risky – territory. Dacxi Learn is a world-first crypto education programme. It's designed to demystify the world of crypto, and help everyday people build the confidence they need to successfully build their wealth.
